Washington Gas protects customers' account information. It is shared only with the person whose name appears on the account, and only that person can authorize that a second name be added.

Customer Choice Program: You now have the option of buying natural gas from natural gas suppliers. Washington Gas will still deliver the natural gas to your home or business and will be available around-the-clock to respond to any emergency involving your gas service. Exercising this choice could result in lower gas costs, and ultimately, a lower gas bill.

For more information about the Choice Program and to see a list of Suppliers, go to washingtongas.com/pages/CustomerChoiceinVirginia or call **703-750-1000**.

About your supplier

Your gas is supplied and distributed by Washington Gas. Washington Gas is regulated by the State Corporation Commission of Virginia. Washington Gas will furnish rate schedule and bill calculation data upon request

VA Commission phone: 804-371-9611

VA Commission address:
Tyler Building, 1300 E Main St, Richmond VA 23219

Other Contacts

Bill Inquiries: 703-750-1000
711 for TTY/TDD; voice relay

Bill inquiries outside your local calling area:
1-800-752-7520

If you smell gas: 911 or 703-750-1400

Useful Information

CCF: A unit of measurement for the amount of gas used. One CCF = 100 cubic feet.

Therm (TH): A measure of the energy in natural gas, equal to the amount of gas (in CCFs) times a heat content factor.

Distribution charge: Covers the monthly cost of transporting your gas through our pipes and storage tanks to your meter. The charge is based on the amount of gas used.

System charge: Covers certain other costs of providing your service, including depreciation of equipment, taxes, maintenance and repair of customer lines, and expenses such as meter reading and billing.

PGC (Purchased Gas Charge): The cost of the natural gas we buy, plus the cost of transporting it to our system.

All Applicable Riders: Covers other regulatory charges as outlined in VA SCC General Service Provisions.

Did you know?

Natural gas is a clean, efficient, and reliable energy. Converting an all electric home to natural gas is the equivalent of planting 2.75 acres of trees or driving 26,520 fewer miles each year. In addition, natural gas cost 1/3 less than electric, which makes it a smart decision for the environment and your wallet.
